

# WORLD DOMINION

The World Dominion Movement advocates Informed Continuous Co-ordinated Evangelism to reach everyone at home and abroad. Its basis is belief in the Deity and Atoning Death of the Lord Jesus Christ, the World's Only Saviour, and in the Final Authority of Holy Scripture.

## MISSION FIELDS AND EVANGELIZATION

fields has shown clearly how much more far-reaching have been investments in men and resources in the larger mission undertakings. Latterly, many of the mission Boards have found it difficult to get the best type of student. British missionary societies have over 200 vacancies for qualified people waiting to be filled. The temptation has been great to send out less qualified people, with the usual trail of difficulties attending this policy. A very definite challenge lies upon the student-world to face the call of to-day, and upon the Boards so to relate their approach to them that the hope of eventually entering the unoccupied fields shall still form part of the appeal.

The call, however, to reach unevangelized peoples is not one that concerns only the missionary candidate. That is an extremely narrow way of looking at the problem. It depends upon the whole impact of Christian nations upon non-Christian communities and upon every Christian who is in contact with them, bearing an adequate witness, whether the connection be trade, commerce, government, or travel. In some cases these will be the only contacts possible, and this constitutes a demand that Christian students to-day should consider their relationship to the missionary call not simply as that of presenting themselves to a mission Board, but as to the way in which they themselves as Christians should respond to Christ's command to be witnesses to Him wherever they may be.

Should the missionary appeal be presented to the Christian student from this point of view, I am sure it would meet with a very real and wide response. From amongst the larger numbers of those who would respond to such an appeal sufficient numbers would be found prepared to accept specific calls by mission Boards to undertake the definite tasks which the foreign mission fields present.

### Brighter Outlook in Spain

The victory of the left gives some hope for realizing the ideals of the republic and for religious liberty. Senor Azaña has already shown his ability to conduct an ordered Government, and as the translator of Borrow's *Bible in Spain*, he can be trusted to uphold religious liberty. Dr. Orts Gonzalez is carrying on a hopeful programme of newspaper evangelism, lectures, retreats for pastors, city campaigns and young people's work.
